ΤΗΝ ΑΝΑΜΕΝΟΜΕΝΗ ΑΝΤΑΠΟΚΡΙΣΗ

Σας παρουσιάζουμε το Daklinza, έναν ισχυρό αναστολέα της NS5A με πανγονοτυπική δράση.^{1,2}

Το Daklinza μαζί με sofosbuvir είναι ένα από στόματος χορηγούμενο σχήμα χωρίς ιντερφερόνη, το οποίο θεραπεύει* τη χρόνια ηπατίτιδα C στην πλειοψηφία των ασθενών σας, συμπεριλαμβανομένων των ασθενών με ανεκπλήρωτες ιατρικές ανάγκες, όπως προχωρημένη κίρρωση, αποτυχία της θεραπείας με αναστολέα της πρωτεάσης (PI) ή γονότυπο 3.^{1,2}

*Σε μακροχρόνιες μελέτες παρακολούθησης έχει καταδειχθεί ότι η SVR₁₂ αντιστοιχεί σε οριστική ίαση της λοίμωξης από HCV τουλάχιστον στο 99% των περιπτώσεων^{3,4}

Dear colleagues,

On behalf of the Organizing Committee, it is a great pleasure to welcome you all to the **9th International Congress of Internal Medicine**, taking place on **9-11 March, 2017** at **Hilton Athens Hotel, Greece**.

The Congress is organized with the joint effort of the **Institute of Internal Medicine and Hepatology** and the **Department of Medicine and Research Laboratory of Internal Medicine of the University of Thessaly Medical School, Larissa, Greece**. We are also glad that the Congress is organized in cooperation with the **Hellenic Association for the Study of the Liver** and the **Hellenic Stroke Organization**. It is also endorsed by the **European Federation of Internal Medicine** and the **Foundation for the Development of Internal Medicine in Europe** and is under the auspices of the **University of Thessaly Medical School**.

This major annual event in Greece is attended nationally and internationally by upwards of 600-700 attendees from all over Greece and other European countries and with the active participation of established international scientists and experts.

The last years the organizing and scientific committee has been focusing on a single goal: hopefully to make this congress an important scientific event beyond the Greek borders, open to friendships and collaborations, that will gain worldwide warm acceptance and recognition for its scientific merit. The success of the past congresses shows us that we walk on the right path towards this goal, enhances our passion and willingness for continuing this educational undertaking.

Up to 78 established international scientists and experts of great impact will participate as faculty members. The scientific program also includes the traditional form of the abstract based sessions and provides young-and not only-colleagues with a great opportunity to present their work, research and clinical experience through oral presentations and e-posters covering various section fields of Internal Medicine. Therefore we would like to thank all of our colleagues for their active participation in the programme.

We would also like to thank all our sponsors for their important support.

We are confident that the Congress will represent for all participants an unforgettable personal and professional experience, and we are happy to welcome you in Athens.

Best regards,

The President of the Organizing Committee
