University of Crete, Heraklion,  
Greece*

### **I. Tsolakis**

*Professor of Vascular Surgery,  
School of Medicine, University  
of Patras, Patras, Greece*

## Together on a life-saving mission

### 10 years of Leading Innovative Vascular Education

On the occasion of the LIVE 2019 annual symposium in Larissa, IVD will celebrate its 10-year anniversary by sharing the experiences of the past 10 years and speaking about the emerging issues and challenges ahead.

Already 10 years old! And we witness how interest grows, not only in LIVE itself, but in the range of all topics that have been covered. This seems to vindicate the direction we have taken over the last decade.

Each year our symposium gains in maturity and experience, and the 10<sup>th</sup> edition promises to provide to the scientific community the kind of information and education needed to help all specialists evolve even further in practice.

During the past 10 years, our industry partners were very much present at LIVE, listening to our unmet needs and trying to respond. We are proud of the collaboration we have built together.

Apart from our focus on celebrating medical advances, we wish to broaden our scope to include other innovative and courageous developments.

**We are honored to invite you to this celebratory and remarkable event!**
