"Autoimmune diseases in neurological clinical practice:  
controversies & dilemmas"

April 12-14, 2018  Anargyriou and Korgialenion College Foundation

Dear colleagues,

It is a real pleasure for us to welcoming you to the 3rd Neurology Symposium of the Military Hospitals of Greece, entitled *Horror Autotoxicus* "Autoimmune diseases in neurological clinical practice: controversies and dilemmas", which will take place on April 12-14, 2018 in the island of Spetses.

The subject of the Symposium will focus on the so called "autoimmune" neurological diseases, which fill out a great part of our every-day clinical practice. Scientific evolutions both in understanding of pathogenesis substrate of these diseases and in the therapeutics field are spectacular.

In an effort to couple theory and practice, introductory clinical workshops will refresh basic knowledge of immunology. For each disease category, a clinical workshop concerning underlying immunological mechanisms will precede, following by a controversy session with specific pathogenetic as well as clinical questions, in order to translate theoretical knowledge into practical implementation. Hot topics will be analysed by experienced clinicians and experts, debating each other and exchanging arguments, the way in the previous symposia had been done.

The symposium aspires to be fully interactive, by using all possibilities of modern technology. The program will be enriched with tests for younger colleagues with enticing prizes for the winners, sessions of crucial topics regarding diagnostic challenges as well as therapeutic strategies that could be applied in our clinical practice and knowledge competitions, in the effort to achieve a pleasant and participatory educational character.

The previous two symposia took place in the emblematic Sarogleio mansion in Athens. This year, a historic educational building, the "Korgialeneios and Anargyreios School of Spetses" was chosen for the purposes of the symposium.

We are looking forward for your presence and active participation in the scientific dialogue which will be conducted during the symposium. With the hope and conviction that this participation will be turned into a useful and constructive experience, we welcoming you to the beautiful and historic island of Spetses.

Nikolaos Fakas MD PhD Colonel Head of Neurology Department 401 General Army Hospital of Athens	Triantafyllos Doskas MD Commander Head of Neurology Department Athens Naval Hospital
Petros Koutsopetras MD Colonel Head of Neurology Department 424 General Army Training Hospital	Konstantinos Chairopoulos MD PhD National Health System Director Head of Neurology Department 417 Army Veterans Hospital

April 12-14, 2018

Anargyriou and Korgialenion College Foundation

### ORGANIZING COMMITTEE OF THE SYMPOSIUM

#### President

**Colonel Fakas Nikolaos**

Head of Neurology Department  
401 General Army Hospital of Athens

#### Members

**Lieutenant Colonel Stouraitis George**

Deputy Head of Neurology Department  
401 General Army Hospital of Athens

**Lieut. Colonel Apostolopoulos Panagiotis**

Registrar of Neurology Department  
401 General Army Hospital of Athens

**Major Nikolaou George**

Registrar of Neurology Department  
417 Army Veterans Hospital

**Major Kardara Panagiota**

Registrar of Neurology Department  
401 General Army Hospital of Athens

**Major Stevis Konstantinos**

Registrar of Neurology Department  
401 General Army Hospital of Athens

### SCIENTIFIC UNION OF THE HELLENIC ARMED FORCES MEDICAL OFFICERS

#### President

**Major General ret. Fronis Charalambos**

General Surgeon, Former Director of 424 General  
Army Training Hospital

#### Members of the Board

**Brigadier General ret. Vougioukas Anestis**

Neurologist-Psychiatrist, Vice President

**Brigadier General ret. Didangelos Pavlos**

Internist - Oncologist, Secretary General

**Lieutenant Colonel ret. Lalagas Nikolaos**

Treasurer

**Major General ret. Athanasiadis Iordanis**

Pediatrician, Member

**Colonel ret. Nikolaidis Thomas,**

Pharmacist, Member

**Colonel ret. Papaggelou Anestis**

Veterinary, Member

### SCIENTIFIC COMMITTEE

#### Directors of Neurology Departments of Military Hospitals

**Colonel Fakas Nikolaos**

Head of Neurology Department  
401 General Army Hospital of Athens

**Colonel Koutsopetras Petros**

Head of Neurology Department  
401 General Army Training Hospital

**Commander Doskas Triantafyllos**

Head of Neurology Department  
Athens Naval Hospital

**Chairopoulos Konstantinos**

Head of Neurology Department  
417 Army Veterans Hospital

### HONORARY SCIENTIFIC COMMITTEE

#### Distinguished members of the Academic Neurology Community, former Medical Officers of the Hellenic Armed Forces

**Grigoriadis Nikolaos**

Professor of Neurology  
Aristotle University of Thessaloniki,  
President of the Hellenic Neurological Society

**Vadikolias konstantinos**

Professor of Neurology  
Dimokriton University of Thrace  
F. President of the Hellenic Neurological Society

**Tsivgoulis Georgios**

Professor of Neurology  
National and Kapodistrian University of Athens

**Mitsikostas Dimos Dimitrios**

Associate Professor of Neurology  
National and Kapodistrian University of Athens  
President of the Hellenic Headache Society  
F. President of European Headache Federation

## SYMPOSIUM SUBJECTS

All Symposium sessions strive to include one or more of these disciplines

- |  |   |
|--|---|
|  <b>Immunology / inflammation</b> |  <b>Clinical studies and trials</b>        |
|  <b>Neurobiology</b>              |  <b>Clinical practice / implementation</b> |
|  <b>Neuroradiology</b>            |  <b>Test your knowledge</b>                |

## Application: Neurology Symposium 2018

Download the application **Neurology Symposium 2018** from App Store or Google Play now for free, in order to achieve your active participation in the Symposium

Application provides the following possibilities to delegates:

- Access to e-program
- Make your own schedule
- Search speakers and faculty
- Submit evaluation of sessions and speakers
- Ask a question
- Submit your vote in tele-voting sessions
- Submit your answers in multiple choice questions tests (residents only) and live competitions
- View in real time or download lectures via webcasting
- Access to general information (transportation, hotels, restaurants, sightseeing, flying dolphin routes, maps)

## Thursday April 12, 2018

**15:00 - 16:00** *Arrival – tour to the facilities of «Anargyreios and Korgialeneios School of Spetses»*

**16:00 - 16:30** **Registration**

### AFTERNOON SESSION

**17:00 – 21:30** Hosts: Koutsopetras P., Nikolaou G.

**17:00 - 17:15** **RECEPTION**  
Fakas N., Doskas T., Koutsopetras P., Chairopoulos K.

**17:15 – 17:30** **OPENING ADRESSS**  
*Structure of the Symposium, session contents, technically supported innovations, active participation, contests, evaluation, tests, awards*  
Fakas N.

**17:30 – 18:30** **1<sup>ST</sup> CLINICAL WORKSHOP**  
*Back to school: basic immunology knowledge for clinicians, starting from "A"*  
Chair: Verginis P.

- Adaptive & innate immunity
- The histocompatibility system and the triple molecular complex
- The cellular and humoral immunity (the role of macrophages, T and B lymphocytes and cytokines)

Speakers: Verginis P., Papadopoulos D.

**18:30 – 19:30** **2<sup>ND</sup> CLINICAL WORKSHOP**  
*The interpretation of abnormal immunology lab tests and their clinical significance*  
Chair: Alexopoulos Ch.

- The autoantibodies, methods of quantitative detection and overlaps
- The antineuronal antibodies and their clinical expression
- Sensitivity and specificity of immunological markers in diagnostic procedures

Speakers: Tzartos I., Alexopoulos C.

Organizing – Administrative Bureau / Secretariat:

Conferre S.A.: "The Art of Bringing People Together", Stavrou Niarchou Avenue, GR 455 00, Ioannina, Greece,

"Autoimmune diseases in neurological clinical practice:  
controversies & dilemmas"

April 12-14, 2018  Anargyriou and Korgialenion College Foundation

19:30 – 19:45

*Coffee break*

19:45 – 21:15

### 1<sup>ST</sup> CONTROVERSY SESSION: AUTOIMMUNE ENCEPHALITIS & AUTOIMMUNE MOVEMENT DISORDERS

Chairs: **Bostantzopoulou S., Konitsiotis S.**

#### 1<sup>st</sup> point of controversy

19:45 – 20:30

**Background:** *The detection of different autoantibodies and the ability of quantitative determination using commercially available panels has increased autoimmune encephalitis diagnostic rates.*

**Debate:** *Should diagnosis and subsequent treatment of autoimmune encephalitis be guided mainly by the clinical phenotype or by the laboratory profile and autoantibodies titer?*

19:45 – 19:50

*Introduction – 1<sup>st</sup> voting*

19:50 – 20:05

Clinical phenotype  
**Papadimitriou D.**

20:05 – 20:20

Laboratory profile  
**Tsimourtou V.**

20:20 – 20:25

Comment  
**Koutsis G.**

20:25 – 20:30

*Panel discussion – 2<sup>nd</sup> voting*

#### 2<sup>nd</sup> point of controversy

20:30 – 21:15

**Background:** *Atypical forms of parkinsonism are relatively rare and in general they are classified as Parkinson plus syndromes, usually with poor response to treatment.*

**Debate:** *In cases of non-typical parkinsonism, should we include autoimmune movement disorders in our diagnostic process and investigate towards this direction or not and how this affects our treatment approach?*

401 GENERAL ARMY HOSPITAL OF ATHENS

### MORNING SESSION

**08:45 – 14:45**      Hosts: **Chairopoulos K., Firinidis P.**

**08:45 – 09:45**      **3<sup>RD</sup> CLINICAL WORKSHOP**

*With the kind support of the Hellenic Academy of Neuroimmunology  
(HEL.A.NI)*

Chair: **Iliopoulos I.**

*Basic principles of immunopathology and pathogenetic mechanisms of  
autoimmune diseases of the Peripheral Nervous System and the  
Neuromuscular Junction.*

- *Immunopathology of autoimmune diseases of the Peripheral Nervous System*
- *Immunopathology of Neuromuscular Junction disorders*

Speakers: **Dimisianos N., Zouvelou V.**

**09:45 – 11:15**      **2<sup>ND</sup> CONTROVERSY SESSION**

### **MYASTHENIA GRAVIS**

Chairs: **Karageorgiou C., Kaoutsopetras P.**

#### 1<sup>st</sup> point of controversy

**09:45 – 10:30**

**Background:** *Thymectomy, although an invasive procedure, usually with delayed therapeutic effect, suggests a therapeutic option in many cases of generalized myasthenia Gravis.*

**Debate:** *Should thymectomy be performed in all cases of generalized myasthenia Gravis, in order to avoid side effects of long term immunosuppression or should the use of thymectomy be limited only as a last defensive line in therapeutic strategy?*

**09:45 – 09:50**

*Introduction – 1<sup>st</sup> voting*

**09:50 – 10:05**

*Always*  
**Stouraitis G.**

**10:05 – 10:20**

*Last option*  
**Firinidis P.**

Organizing – Administrative Bureau / Secretariat:

10:20 – 10:25

*Comment*

**Makris N.**

10:25 – 10:30

*Panel discussion – 2<sup>nd</sup> voting*

### 2<sup>nd</sup> point of controversy

10:30 – 11:15

**Background:** *Therapeutic manipulations in localized ocular myasthenia Gravis remain a matter of debate, as long term use of immunosuppressive drugs could unfavourably influence the immunological status of patients.*

**Debate:** *Should treatment in ocular myasthenia be limited in clinical improvement of symptoms or it should target to prevention of progression to generalized form of the disease?*

10:30 – 10:35

*Introduction – 1<sup>st</sup> voting*

10:35 – 10:50

*Symptomatic treatment*

**Karakalos D.**

10:50 – 11:05

controversies & dilemmas"

April 12-14, 2018  Anargyion and Korgialenion College Foundation

***Debate:*** Which is the best choice for starting treatment in CIDP, taking into account efficacy, perspective, cost and side effects: steroids or IVIG?

11:15 – 11:20 Introduction – 1<sup>st</sup> voting

11:20 – 11:35 Steroids  
**Doris S.**

11:35 – 11:50 IVIG  
**Georgala M.**

11:50 – 11:55 Comment  
**Gekas G.**

11:55 – 12:00 Panel discussion – 2<sup>nd</sup> voting

**12:00 – 12:30 Coffee break**

**12:30 – 13:15 INDUSTRY SPONSORED SATELITE SYMPOSIUM**

**13:15 – 13:45 HOT TOPIC LECTURE**  
Chair: **Deretzi G.**

The dark side of MS: cognition and cognitive rehabilitation  
**Celius E.G.**

**13:45 – 14:45**  
 **1st HOT TOPIC SESSION IN MS:  
DIAGNOSTIC CHALLENGES:  
MULTIPLE SCLEROSIS ATYPICAL FEATURES, COMORBIDITIES &  
MIMICS**  
Chairs: **Vlaikidis N., Orologas A.**

***Background:*** Diagnosis of Multiple Sclerosis is not always easy. The continuum revision of diagnostic criteria aim to achieve a more rapid and accurate diagnosis, maintaining at the same time high rates of sensitivity and specificity. Though, in the everyday clinical practice, diagnostic challenges and dilemmas will never stop to be present

13:45 – 13:50 Introduction

Organizing – Administrative Bureau / Secretariat:

Conferre S.A.: "The Art of Bringing People Together", Stavrou Niarchou Avenue, GR 455 00, Ioannina, Greece,

"Autoimmune diseases in neurological clinical practice:  
controversies & dilemmas"

April 12-14, 2018  Anargyriou and Korgialenion College Foundation

13:50 – 14:05

### 1st hot topic

The patient with atypical first manifestations: delays and common pitfalls.

**Kostadima V.**

14:05 – 14:20

### 2nd hot topic

The patient with comorbidities: diagnostic difficulties.

**Evangelopoulou E.**

14:20 – 14:35

### 3rd hot topic

MS mimics: differential diagnostic tips to distinguish them from MS. Which are the consequences of a wrong diagnosis and subsequent treatment?

**Koutlas E.**

14:35 – 14:45

*Panel discussion*

**14:45 – 16:00**

***Light lunch***

## **EVENING SESSION**

16:00 – 21:15

Hosts: **Doskas T., Stouraitis G.**

16:00 – 17:15

### **4<sup>TH</sup> CLINICAL WORKSHOP**

*With the kind support of the Hellenic Academy of Neuroimmunology (HEL.A.NI)*

Chair: **Iliopoulos I.**

#### *Immunobiology of Multiple Sclerosis and variants*

- *Exogenous factors, influence and diversion of immunity system*
- *The role of innate and adaptive immunity, the activated lymphocytes, the Blood Brain Barrier and the microglia*
- *Inflammation, degeneration, demyelination and remyelination*
- *Immunological memory and how a monophasic event evolves to chronic disease*
- *The water channels, the receptors and antibodies formation*

Speaker: **Kilintireas K.**

### 4<sup>TH</sup> CONTROVERSY SESSION

#### **MULTIPLE SCLEROSIS – I: PATHOGENESIS AND UNDERLYING PATHOLOGY**

Chairs: **Milonas I., Papathanasopoulos P.**

#### *Point of controversy*

*Background:* A disagreement among scientists exists in the literature about the role of inflammation and neurodegeneration and the in between them relationship, regarding the pathology of Multiple Sclerosis.

*Debate:* Is inflammation the primary process that leads to neurodegeneration, as a result of a wrong immunological response of the adaptive immunity or is it an independent component of the disease, that leads to autoantigen secretion and subsequent secondary autoimmunity? In other words, is the pathogenesis of Multiple Sclerosis an "outside in" or "inside out" process?

17:15 – 17:20

*Introduction – 1<sup>st</sup> voting*

17:20 – 17:35

*"Outside in" pathology*  
**Papadopoulos D.**

17:35 – 17:50

*"Inside out" pathology*  
**Pelidou E**

17:50 – 18:55

*Comment*  
**Kilintireas K.**

17:55 – 18:00

*Panel discussion – 2<sup>nd</sup> voting*

18:00 – 18:45

### **INDUSTRY SPONSORED SATELITE SYMPOSIUM**

"Autoimmune diseases in neurological clinical practice:  
controversies & dilemmas"

April 12-14, 2018  Anargyriou and Korgialenion College Foundation

## Saturday April 14, 2018

### MORNING SESSION

08:45 – 14:30

Hosts: Fakas N., Grinias V.

08:45 – 09:45

#### 5<sup>TH</sup> CLINICAL WORKSHOP

**Basic and usable lessons on neuroradiology for clinicians**

Chair: Toulas P.

- Basic physics principles regarding function of Magnetic Resonance Imaging
- Explanation of function and different sequences in MRI
- Imaging of inflammatory lesions of the brain and spinal cord in conventional MRI sequences. The contribution of advanced MRI techniques
- Imaging tips in order to distinguish demyelinating lesions from other inflammatory or vascular lesions

Speakers: Toulas P., Poulou L.

09:45 – 11:15

#### 5<sup>TH</sup> CONTROVERSY SESSION

##### **MULTIPLE SCLEROSIS – II:**

- **NEW TECHNIQUES IN NEUROIMAGING AND EMERGING BIOLOGICAL MARKERS: CLINICAL CORRELATIONS AND THEIR POSSIBLE SIGNIFICANCE IN CLINICAL PRACTICE**
- **THERAPEUTIC STRATEGIES IN 2018**

Chairs: Papathanasopoulos P., Konitsiotis S.

#### 1st point of controversy

09:45 – 10:30

**Background:** The existence of demyelinating lesions in Spinal Cord is very common among Multiple Sclerosis patients, suggesting at the same time a very poor prognostic factor. Though, in contrary with the usual clinical practice, spinal cord lesion load is not included among other endpoints in RCTs. On the other hand, new biological markers, such as neurofilaments (NfLs), seem to gain ground as indirect markers of axonal damage and new commercially available panels are being developed constantly.

**Debate:** Should Spinal Cord MRI be included as an additional parameter of treatment evaluation in RCTs in future and is this really feasible or the use of NfLs in evaluating treatment response is preferable?

Organizing – Administrative Bureau / Secretariat:

Conferre S.A.: "The Art of Bringing People Together", Stavrou Niarchou Avenue, GR 455 00, Ioannina, Greece,

## *Horror Autotoxicus*

**"Autoimmune diseases in neurological clinical practice:  
controversies & dilemmas"**

April 12-14, 2018  Anargyriou and Korgialenion College Foundation

09:45 – 09:50 *Introduction – 1<sup>st</sup> voting*

09:50 – 10:05  
S.C. MRI  
**Fakas N.**

10:05 – 10:20  
Neurofilaments  
**Pantzaris M.**

10:20 – 10:25  
Comment  
**Iliopoulos I.**

10:25 – 10:30 *Panel discussion – 2<sup>nd</sup> voting*

### 2<sup>nd</sup> point of controversy

10:30 – 11:15  
 **Background:** *The armamentarium of available therapies for Multiple Sclerosis continues to be enriched with new drugs. According to the results of RCTs, new therapies show higher efficacy rates. In addition, mode of action is much more specified and targeted.*

**Debate:** *In light of new therapeutic data, the eternal debater comes back and remains always crucial: Induction vs Escalation.*

10:30 – 10:35 *Introduction – 1<sup>st</sup> voting*

10:35 – 10:50  
Induction therapy  
**Anagnostouli M.**

10:50 – 11:05  
Escalation therapy  
**Spanaki K.**

11:05 – 11:10  
Comment  
**Deretzi G.**

11:10 – 11:15 *Panel discussion – 2<sup>nd</sup> voting*

**11:15 – 12:00 INDUSTRY SPONSORED SATELITE SYMPOSIUM**

**12:00 – 12:30 *Coffee break***

**12:30 – 13:15 INDUSTRY SPONSORED SATELITE SYMPOSIUM**

"Autoimmune diseases in neurological clinical practice:  
controversies & dilemmas"

April 12-14, 2018  Anargyriou and Korgialenion College Foundation

13:15 – 14:30

### 2nd HOT TOPIC SESSION IN MS: THERAPEUTIC CHALLENGES: SPECIAL CASES IN MULTIPLE SCLEROSIS AND THERAPEUTIC MANIPULATIONS

Chairs: **Papadimitriou A., Fakas N.**

**Background:** *The number of available treatments for Multiple Sclerosis has spectacularly increased in the last few years and new drugs, with additional indication for progressive forms of the disease, are ante portas. This fact enriches our therapeutic options but, at the same time, makes therapeutic manipulations more demanding and complicated. Three hot therapeutic questions require crucial and clear answers.*

13:15 – 13:20

*Introduction*

13:20 – 13:40

#### **1st hot topic**

Aggressive multiple Sclerosis: how is it defined, is it different from highly active MS and how do we confront it?

**Doskas T.**

13:40 – 14:00

#### **2nd hot topic**

Progressive forms of Multiple Sclerosis: are the emerging therapies with such an indication panacea and one way option? How can we deal with them until these therapies will be available and what other treatment options do we have?

**Nikolaou G.**

14:00 – 14:20

#### **3rd hot topic**

Switching between therapies: risks, interactions, strategies of safe switching and unanswered questions, emphasizing in new treatments.

**Dardiotis E.**

14:20 – 14:30

*Panel discussion*

**14:30 – 16:15**

***Light lunch***

"Autoimmune diseases in neurological clinical practice:  
controversies & dilemmas"

April 12-14, 2018  Anargyriou and Korgialenion College Foundation

### EVENING SESSION

16:15 – 21:30 Hosts: Fakas N., Doskas T.

16:15 – 17:30  **6<sup>TH</sup> CLINICAL WORKSHOP**  
**Critical evaluation of clinical trials**  
Chair: Hadjigeorgiou G.

- Types and organization of clinical trials
- Basic principles of statistics and their meaning (absolute and relative risk reduction, placebo arm behaviour, NNTs)
- "Subscripts" of published clinical trials and what should a careful reader pay attention to.
- Analysis of results, meta-analyses and net-analyses.

Speakers: Mitsikostas D., Zintzaras I.

17:30 – 18:15  **6<sup>TH</sup> CONTROVERSY SESSION**  
**MULTIPLE SCLEROSIS – III:**  
**DIRECT AND INDIRECT COMPARISON OF DRUG EFFICACY, LONG-TERM & REAL WORLD DATA**  
Chairs: Hadjigeorgiou G., Zintzaras I.

#### *Point of controversy*

17:30 – 18:15  **Background:** *Systematic meta-analyses and net-analyses have been placed in the top of the pyramid of evidence-based medicine sources, according to their reliability.*

**Debate:** *Do their results actually provide a clear image and enough evidence regarding the comparative efficacy of Multiple Sclerosis treatments or comparisons based on real-world data with the use of propensity or other matching scores reflect better the reality?*

17:30 – 17:35 *Introduction – 1<sup>st</sup> voting*

17:35 – 17:50 Systematic meta-analyses  
**Artemiadis A.**

17:50 – 18:05 Real-life data meta-analyses  
**Konstantinidis T.**

18:05 – 18:10 Comment  
**Lorscheider J., Dardiotis E.**

**"Autoimmune diseases in neurological clinical practice:  
controversies & dilemmas"**

April 12-14, 2018  Anargyriou and Korgialenion College Foundation

18:10 – 18:15 *Panel discussion – 2<sup>nd</sup> voting*

**18:15 – 18:45** *Coffee break*

**18:45 – 20:40**

**3rd HOT TOPIC SESSION IN MS  
SHORT FLASHBACK AND FUTURE PERSPECTIVES:  
EMERGING THERAPIES, BIOLOGICAL MARKERS & TREATMENT  
INDIVIDUALIZATION, REDESIGN OF CLINICAL TRIALS, CELL-BASED  
THERAPIES**

**Chairs: Milonas I., Kappos L.**

**Background:** *The landscape in Multiple Sclerosis is being reformed rapidly, both in the level of clinical research and in the level of therapeutics and practical implementations. How does the future is specified and how different our approaches will be in three years from now? A short flashback and three hot emerging evolutions.*

18:45 – 19:00 Introduction: a short flash back to the last 25 exciting years. A strong stockpile for an even more promising future.  
**Milonas I.**

19:00 – 19:30 Novel therapies in MS: the challenge of choice  
 **Kappos L.**

19:30 – 20:00 The absolute turnover in clinical trial design: from RCTs to pragmatic trials and observational studies  
 **Lorscheider J.**

20:00 – 20:30 Cell-based therapeutic strategies in MS: present and future  
 **Karussis D.**

20:30 – 20:40 *Panel discussion*

## SPEAKERS AND CHAIRS INDEX

### **Agathonikou Alexandros**

Coordinator Director, National Health System,  
Head of Neurology Department, Athens General  
Hospital "KAT"

### **Alexopoulos Charis**

Neurobiologist Neuroimmunologist,  
Neuroimmunology Unit in the Laboratory of  
Pathology and Physiology, University of Athens  
Medical School

### **Anagnostouli Maria**

Assistant Professor of Neurology, University of  
Athens Medical School, Immunogenetics Unit,  
1<sup>st</sup> Department of Neurology,  
University Hospital of Athens "Aeginition"

### **Artemidis Artemios**

Neurologist, 417 Army Veterans Hospital

### **Bairaktaris Chrisostomos**

Neurologist MD PhD,  
Former Head of Neurology Department in 401  
General Army Hospital of Athens.

### **Bostantzopoulou Sevasti**

Professor of Neurology, Aristotle University of  
Thessaloniki Medical School, Head of the 3<sup>rd</sup>  
Department of Neurology, University Hospital  
of Thessaloniki "G. Papanikolaou"

### **Celius Elisabeth Gulowsen**

Professor of Neurology,  
University of Oslo  
Ullevål & Institute of Health and Society  
Oslo University Hospital, Neurology Dept.  
Oslo, Norway

### **Chairopoulos Konstantinos**

Coordinator Director, National Health  
System, Head of Neurology Department,  
417 Army Veterans Hospital

### **Dardiotis Efthimios**

Assistant Professor of Neurology,  
University of Thessaly, University General  
Hospital of Larisa, Neurology Department

### **Deretzi Georgia**

Director, National Health System,  
Department of Neurology, Thessaloniki  
General Hospital "Papageorgiou"

### **Dimisianos Nikolaos**

Neurologist MD PhD

### **Doris Stylianos**

Head of 2<sup>nd</sup> Neurology Department and  
Neurophysiology Unit, Euroclinic Hospital

### **Doskas Triantafyllos**

Head of Neurology Department,  
Athens Naval Hospital

### **Evangelopoulou Maria Eleftheria**

Assistant Professor of Neurology,  
University of Athens Medical School,  
1<sup>st</sup> Department of Neurology,  
University Hospital of Athens "Aeginition"

### **Fakas Nikolaos**

Head of Neurology Department,  
401 Army General Hospital of Athens

### **Firinidis Pavlos**

Registrar, 424 Army General Training  
Hospital, Neurology Department

### **Gekas Georgios**

Coordinating Director, National Health  
System, Head of Neurology Department,  
Piraeus General Hospital "St. Panteleimon"

Organizing – Administrative Bureau / Secretariat:

Conferre S.A.: "The Art of Bringing People Together", Stavrou Niarchou Avenue, GR 455 00, Ioannina, Greece,

"Autoimmune diseases in neurological clinical practice:  
controversies & dilemmas"

April 12-14, 2018

Anargyriou and Korgialenion College Foundation

### **Georgala Maria**

Director Neurophysiologist, Metropolitan  
Hospital, Neurology Department

### **Grinias Vasilios**

Deputy Head of Neurology Department,  
Athens Naval Hospital

### **Chatzigeorgiou Georgios**

Professor of Neurology,  
University of Thessaly Medical School,  
Head of Neurology Department,  
University Hospital of Larisa,  
President of Medical School,  
University of Thessaly

### **Iliopoulos Ioannis**

Professor of Neurology,  
Dimokriton University of Thrace,  
University Hospital of Alexandroupolis,  
Neurology Department,  
President of the Hellenic Academy of  
Neuroimmunology (HEL.A.NI)

### **Kappos Ludwig**

Professor of Neurology and Chair, Research  
Group Leader, Clinical Neuroimmunology and  
Neurobiology, University Hospital of Basel,  
Basel, Switzerland

### **Karageorgiou Clementine**

Neurologist Psychiatrist, Director of Neurology  
Department, Athens Medical Center

### **Karakalos Dimitrios**

Director, National Health System,  
Department of Neurology, Athens General  
Hospital "Evangelismos"

### **Karussis Dimitrios**

Professor of Neurology, Head of the Hadassa  
Neuroimmunology / MS Center and  
Cell Therapies, President of the Israeli Society  
of Neuroimmunology, Hadassah University  
Hospital, Jerusalem, Israel

### **Kilintireas Konstantinos**

Associate Professor of Neurology and  
Neuroimmunology, University of Athens  
Medical School, Neuroimmunology Unit,  
1<sup>st</sup> Department of Neurology,  
University Hospital of Athens "Aeginition"

### **Konitsiotis Spyridon**

Professor of Neurology, University of  
Ioannina Medical School, University Hospital  
of Ioannina, Neurology Department

### **Konstantinidis Theodoros**

President of the Hellenic Society of Clinical  
Neurophysiology

### **Kostadima Vasiliki**

Director, National Health System,  
University Hospital of Ioannina,  
Department of Neurology

### **Koutlas Evangelos**

Director, National Health System,  
Department of Neurology, Thessaloniki  
General Hospital "Papageorgiou"

### **Koutsis Georgios**

Assistant Professor of Neurology,  
University of Athens Medical School,  
Nervous System Genetics Unit,  
1<sup>st</sup> Department of Neurology,  
University Hospital of Athens "Aeginition"

Organizing – Administrative Bureau / Secretariat:
